Submit #558355: D-Link DIR-605L 2.13B01 Command Injection

Title	D-Link DIR-605L 2.13B01 Command Injection
Description	d-link DIR-605L has command injection vulnerability in sub_454F2C.he program receives the value of the host field through the websGetVar function,concatenates it into a formatted string using the sprintf function, and finally executes a system command using the system function. Since the attacker's inputis not filtered, any command can be executed.
