

Submit #565463: code-projects patient-record-management-system-in-php 0/1 sql injection

Title

code-projects patient-record-management-system-in-php 0/1 sql injection

Description

An unrestricted SQL injection attack exists in patient-record-management-system-in-php in /edit_upatient.php. The parameters that can be controlled are as follows: \$id. This function executes the id parameter into the SQL statement without any restrictions. A malicious attacker could exploit this vulnerability to obtain sensitive information in the server database.
