 Security

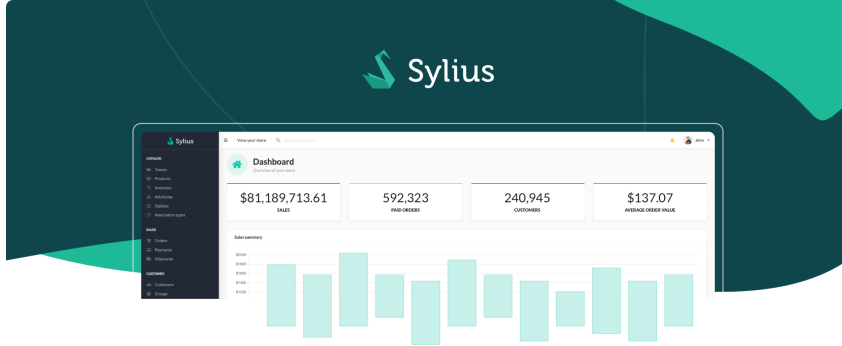

A celebratory banner for Sylus's 20th anniversary. It features a dark blue background with several balloons in red, orange, and gold. Confetti is scattered around. The word 'Sylus' is at the top left with a green arrow pointing down to a large, stylized '20' in the center. Below the '20', the words 'IS HERE!' are written in a light blue, spaced-out font.

Sylus is an Open Source eCommerce framework on top of [Symfony](#).

The highest quality of code, strong testing culture, built-in Agile (BDD) workflow and exceptional flexibility make it the best solution for applications tailored to your business requirements. Powerful REST API allows for easy integrations and creating unique customer experience on any device.

We're using full-stack Behavior-Driven-Development, with [phpspec](#) and [Behat](#).

Enjoy being an eCommerce Developer again!

Installation

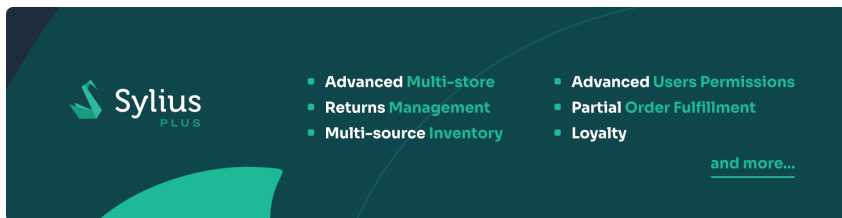

Install [Syllus](#) with Composer (see [requirements details](#)).

Follow the [Getting started with Syllus tutorial](#)!

Documentation

Documentation is available at docs.syllus.com.

Syllus Plus

[Syllus Plus](#) offers modular features like **OnePageCheckout** and a **B2B suite**, alongside advanced capabilities such as multi-store management, partial order fulfillment, smooth returns handling, a loyalty system and multi-source inventory. Pick and choose the modules you need to supercharge your eCommerce projects effortlessly.

Community

Get Syllus support on [Slack](#) or [Stack Overflow](#) or get professional **SLA-backed support and Project Success Assistance** with Syllus Plus license! [Learn more.](#)

Stay updated by following our [Twitter](#) and [Facebook](#).
