5   5     The format is based on [Keep a Changelog](http://keepachangelog.com/)  
6   6     and this project adheres to [Semantic Versioning](http://semver.org/).  
7   7  
8     - ## [Unreleased]  
8     + ## [1.5.0] - Unreleased  
9   9  
10  10    ### Fixed
```

```
11 11
12 12      - Ensure that the `Taskjob` identifier is used to extract the device IP.
13 13      - Isolate dynamic group criteria to prevent their global reapplication in GLPI.
14 14      - Fixes memory exhaustion when "extra-debug" is disabled
15 + - Remove "server_upload_path" configuration from database. This is a BC break if you use
     that for package deployment.
16 + - It now relies on `GLPI_PLUGIN_DOC_DIR/glpiinventory/upload/`; GLPI_PLUGIN_DOC_DIR by
     default set to `files/_plugins/` under your GLPI instance.
