

# Submit #524934: projectworlds Online Time Table Generator 1.0 Unrestricted Upload

**Title** projectworlds Online Time Table Generator 1.0 Unrestricted Upload

**Description** The file upload functionality in "/admin/add\_student.php" lacks proper validation of user-supplied files. Attackers can upload malicious scripts (php) due to missing file type checks and extension filtering. The server executes these files in the web-accessible upload directory, leading to full system compromise.
