| Title       | 长沙友点软件科技有限公司 YouDianCMS 9.5.21 Cross Site Scripting                                                                                                                                                                                                                                                   |
| Description | YouDianCMS v9.5.21 has a reflected XSS vulnerability in App/Tpl/Member/Default/Order/index.html. Attackers can add malicious JavaScript scripts to the URL, and the server will concatenate the malicious scripts into the URL and return them to the browser, ultimately causing XSS vulnerabilities |
