🚀 Release `autogpt-platform-beta-v0.6.1`

Date: 26 March 2025

🔥 What's New?

New Features

- **#9662** - Use a single DB manager across the system (by **@majdyz**)
- **#9668** - Avoid connecting the same host and falling-back to defined api_host (by **@majdyz**)
- **#9665** - Mark starting nodes as QUEUED instead of INCOMPLETE during the initial execution (by **@majdyz**)
- **#9667** - Avoid loading all node executions on large continuous agent (by **@majdyz**)
- **#9628** - Add backend support for store listings submissions (by **@ntindle**)
- **#9657** - Add agent input block subtypes (by **@majdyz**)
- **#9661** - Add capability to charge based on block execution count (by **@majdyz**)
- **#9634** - Admin agent review table (by **@ntindle**)
- **#9452** - Migrate old models in existing agents (by **@kcze**)
- **#9636** - Onboarding updates (by **@kcze**)
- **#9689** - Add toast on agent execution request failure (by **@majdyz**)

Enhancements

- **#9632** - Fill defaults from schema to `hardcodedValues` at node creation (by **@kcze**)

Bug Fixes

- [#9660](#) - Add `user_id` to websocket event subscription key (by **@Pwuts**)
- [#9666](#) - Fix unreliable websocket connection for node execution update (by **@majdyz**)
- [#9677](#) - Disable and provide toggle for Agent Input Block subtypes (by **@majdyz**)
- [#9688](#) - Increase block request security; Prevent DNS rebinding & open redirect attack (by **@majdyz**)
- [#9694](#) - Improve error message on unmatched webhook ingress (by **@Pwuts**)
- [#9697](#) - Filter Redis messages by user ID (by **@Pwuts**)
- [#9696](#) - Skip updating status of already terminated graph (by **@majdyz**)

Dependencies & Maintenance

- [#9672](#) - Security upgrade next from 14.2.23 to 14.2.25 (by **@ntindle**)
- [#9664](#) - Defer loading of `.blocks` and `.integrations.webhooks` on module init (by **@Pwuts**)
- [#9663](#) - Reorganize & clean up execution update system (by **@Pwuts**)

🎉 Thanks to Our Contributors!

A huge shoutout to everyone who contributed to this release:

- **@majdyz**
- **@ntindle**
- **@Pwuts**
- **@kcze**

📥 How to Get This Update

To update to this version, run:

```
git pull origin autogpt-platform-beta-v0.6.1
```

Or download it directly from the [Releases page](#).

For a complete list of changes, see the [Full Changelog](#).

📝 Feedback and Issues
