# Stored XSS in Graphlytic 5.0.7

## Steps to Reproduce:

1. Create a new visualization.
2. Click on save.
3. Write any name under 30 characters.
4. In the description, add the following payload:

```
"><!----->img src=x onerror=alert(document.cookie) >
```

5. Click on Projects / View the list from top left to execute the Stored XSS payload.

IT Infrastructure

**Cluster Visualization**  
 Updated on 2024-12-09 10:02:50 by admin  
 A larger cluster of nodes showing how multiple services can share the same hardware resources.

**Compact View**  
 Updated on 2024-12-09 10:01:04 by admin  
 View of a specific cluster showing entity relationships in detail.

**Top 3 HW Platforms**  
 Updated on 2024-12-09 10:03:59 by admin  
 Shows the three largest HW platforms in the database. From racks to virtual servers and network devices in one picture.

Ownership Screening
